

## **Testimonial for A P Lewis Builders**

It is a pleasure to write a testimonial for A P Lewis and son's builders. It was a very enjoyable experience working with James throughout the building process. I can highlight many positive points we really appreciated while working with James.

- James and Mr Lewis both are very friendly and professional. We felt like we were dealing with one of our friends throughout the project.
- Excellent communication. James was always contactable and replied to e-mails most of the times, within few hours.
- We were always welcome on the site and felt that we were completely involved in decision making.
- Time management on the project was particularly impressive, as James managed to deliver the house to us exactly on the planned date. This was a huge relief in many ways for us.
- James was very flexible and helpful when we wanted to do some changes and upgrades in the house.
- It was obvious that he has a very good relationship with his sub-contractors and his team. Adam and Richard were there to help us in James's absence.

We are very pleased with the finished product which has a high standard as we expected and enjoying every minute in our new home. Thank you, James, for making this journey an exciting and stress free one.
