

To Whom It May Concern:

A P Lewis Ltd have recently completed a fantastic refurbishment and extension project at our Leicester South Corps, South Wigston. The team that were assigned to our project were extremely professional throughout and assured that the clients' expectations were met and often exceeded. A particular thanks has to be given to the site foreman, who was outstanding in his role. The Corps Officers and staff were updated continually on the days' events and he was an excellent communicator and worked with the Corps to ensure there was very little disruption to their mission based duties. He is certainly an asset to your company.

The Corps now have a large smart Community Cafe dining area and the first floor refurbishment now enables an excellent facility for the local community to use and enjoy.

I would like to extend my thanks for a job well done to every person at AP Lewis Ltd who had a hand in this project. We are pleased with the final product and look forward to working with your professional team again in the future.

Regards,

Shell
